

Ut *Luna*, sic rerum vices.
Nunquam eadem facies.

The parts of Mans bodie, as they
are commonly reputed to be go-
verned by the Moon in the
12 Signs.

Head and Face.	}	Reigns & Loins
Neck and Throat		Secret members.
Arms & Should.		Thighs
Breast & Ribs.		Knees,
Heart and Back.		Legs,
Bowels & Belly.		Feet.

P^oor wretched Man, that thus belleged art
 In all thy Quarters, head, & feet, & heart,
 By Bulls and Lions, Scorpions, Arrows keen,
 That threat to pierce thee, the with wounds
 unseen.
 Verfeare them not, for there is One above
 That doth beget thee With a (speare of love:
 Whose gracious aspect and benevolence,
 Will moderate their threats and influence.
 Look up and trust, and know assuredly,
 That Stars and Angels shall thy Genues by

 Primary Reader, Within this Circle of
 the Wheel, are 36 Monethes, calculated for
 the Years of our Lord 1612, 1613, 1615, Every
 3d. Year, the Conjunction of Columns, the first
 (which the days of the Month, the second
 the days of the Week, the third the Feasts
 hath and moveable, the fourth in what
 Sign is the Moon is, and the with the Age
 of the Sun, the fifth the Age of the High-
 water, and divers other places in E-
 ngland, &c. The New Moon is there marked
 by the ☾ Circle, Quarter thus ☾, The Full
 Moon by the ☽, and the Last Quarter thus ☾.
 The Interspace of the ☾ is divided by the
 ☽ of the whole Universe, with the exact
 Dimensions of all the parts thereof; from
 whence, exceedingly thus may be admired
 the Wisdom of God, who hath made the
 ☽ Divine Majesty: to whose protection he
 committed thee, and remaineth thus.
 P. M. D. C. C. L. X. V.
 Next after the Superfluities of the
 Earth, to the Conspice of ☽ Lanes, are
 60000 miles.
 Likewise observe, that we cannot certainly
 describe what part of the intercepted Space
 of the Air Circle is consumed, and the Region
 of Fire doth begin.
 The Clouds are commonly carried higher
 than ☽ Earth 50 miles.
 The compass of the Earth contains
 10000 miles.
 The Hemisphere 6800 miles.
 The Hemisphere 935 miles.
 The Hemisphere of the Earth is 35 miles.
 The Hemisphere of the Earth is 35 miles.
 To avoid confusion, have omitted some
 Figures which otherwise should have
 been inserted.
